

LƯU GIA XUÂN BẢO

FRONT END DEVELOPER

OBJECTIVE

Hi, I'm Luu Gia Xuan Bao, a Front End Developer with 3 years of experience, passionate about building beautiful, functional and user-centered web interfaces. Proficient in Reactjs and other technologies such as Nextjs, Tailwind, Material UI, and Typescript. Eager to leverage skills and expertise to contribute to the success of your next project.

WORK EXPERIENCE

FRONT END DEVELOPER // 2021 - present

UPOS

I have experience in building user interfaces with Reactjs, leveraging a variety of modern libraries and frameworks to create dynamic and interactive web applications.

Core Skills:

- **Styled Components & CSS Preprocessors:** Adept at styling components using Styled Components for improved maintainability and reduced class name conflicts. Additionally, I have experience with SCSS for more complex styling needs.
- **React Hooks:** Utilize various React Hooks (useState, useEffect, useContext, useReducer, useRef) to manage component state, side effects, context, complex state management, and DOM manipulation effectively.
- **Routing & Navigation:** React Router for seamless navigation between different application views, ensuring a smooth user experience.
- **State Management:** Experienced in using both useReducer for complex state management within components and useContext for efficient global state sharing across the application.
- **UI Component Libraries:** Knowledge about Material UI and Tailwind CSS to rapidly build reusable and visually appealing UI components, adhering to established design principles.
- **Nextjs and Typescript:** Little Experience with Next.js and TypeScript. Using both Next.js and TypeScript for Portfolio
