WORK EXPERIENCE

Oct 2021 - Present

J&T Express
Front-end Developer
In J&T Express, I'm coding a project related to Online Sales Management. In this project, myteam and I have built an ecosystem that includes various functionalities such as: Bulk OrderCreation, FB integration, connecting to FB livestream for optimizing the process of automaticorder placement during livestreaming, product inventory control, Point of Sale (POS) salesfunctions, and more. For this project, the team has utilized React.js for the Front End and PH Pfor the Back End. Here is the link to the project: https://banhang.upos.vn/

Oct 2020 - June 2021

CYBERSOFT INC
Front-end Developer
I attended the Cybersoft programming training center. The process of learning and training is done within 10 months. Since Octorber 2020, I have been working as a Front-end Developer in many projects such as

movie theater, shoe sales, chat application. After the Cinema project
ended, I worked as a Front-end Developer in the Shoe Sale project up
to now. My responsibility is to implement new features, fix bugs of
functionality, investigate technical solutions, and participate in
requirements discussions.I am always willing to learn new things so that
I can improve myself. Experiment friendly with real working environment
and improve weak skills.
